

论文信息

论文编号:ZUQEUIJGZZO

论文名称:Research on Intelligent Identification Method for Access Equipment of Grid Information System

评审意见

评审意见: 返修

评审时间: 2020-11-29

- 1、Is the paper clearly presented and well organized?: YES
- 2、Is the English satisfactory? : YES
- 3、Is the title appropriate?: YES
- 4、Are the figures, tables, and their captions clear?: YES
- 5、Are the references to related work adequate?: YES
- 6、Scientific Quality: Sound, original, and of interest.
- 7、Recommendation: Publish with minor revision noted in evaluation statement.
- 8、Comments: Please summarize the reasons for your recommendation in a statement below or on the reverse side of this sheet.: 1、通讯作者右上角请加星号 2、abstract最后一句 ‘ In this article, the application is based on active and passive information collection technology to intelligently obtain the relevant information of the access device, proposes the device profile technology to intelligently identify the network topology, device type and device status, and uses an intelligent access mechanism to enhance the information network Controllability of security access.’ 句式杂糅，建议作者检查表达 3、introduction最后一句 ‘Based on equipment profile technology, intelligently identify network topology, equipment type, equipment manufacturer, equipment status, etc., and use an intelligent access mechanism to improve the controllability of information network security access.’ 建议添加主语或修改为被动语态 4、figure1-6过于模糊，请作者修改清晰度使其符合出版需求，并将figure中的汉语翻译或替换 5、conclusion倒数第二句 ‘Strengthened the construction of smart grid systems.’ 建议添加主语或修改为被动语态 6、本文建议录用，请作者仔细检查全文并排除细节出错处，按审稿意见酌情修改文章，并在一周内返回，请将您修改后的文章在原订单上传最新版本，无需新建投稿订单，谢谢配合
